ACRYLIC COATING SYSTEMS

WHY YOU SHOULD CHOOSE SPRAY POLYURETHANE FOAM

Spray Polyurethane Foam (SPF) is widely recognized as an industry standard, and continues to surpass expectations for cost-savings, durability and longevity while adding these valuable benefits:

- Meets requirements for California Title 24
- Provides a seamless umbrella over new and existing roof substrates.
- Best insulation value per inch
- 100% Adhesion
- Self-Flashing
- Slopes to drain
- System is lightweight
- Sustained Performance
- **It's RENEWABLE**

THERMO-FLEX™ Foam & Coating System provides a complete program designed to protect, preserve, and prolong the life of both commercial and residential roofs.

CUSTOM COLORS AVAILABLE !

BENEFITS OF APPLYING TF 1000® ACRYLIC

THERMO-FLEX™ Foam & Coating System is a premium quality, fluid-applied, elastomeric roof coating manufactured with 100% Acrylic Resin technology. TF 1000® is formulated for application over Spray Polyurethane Foam. Upon application, SPF and coatings provide a seamless blanket that exhibits outstanding reflectivity, adhesion, flexibility and water resistance. TF 1000® is designed to withstand extreme weather and the full range of environmental conditions, including the punishing ultra-violet rays. TF 1000® is a water-based, nontoxic elastomeric roof coating with over 30 years of proven high performance.

TF 1000® and TF 750® are the first choice and fastest growing roofing solutions today.

**Available in 3 standard colors:
White, Gray or Tan**

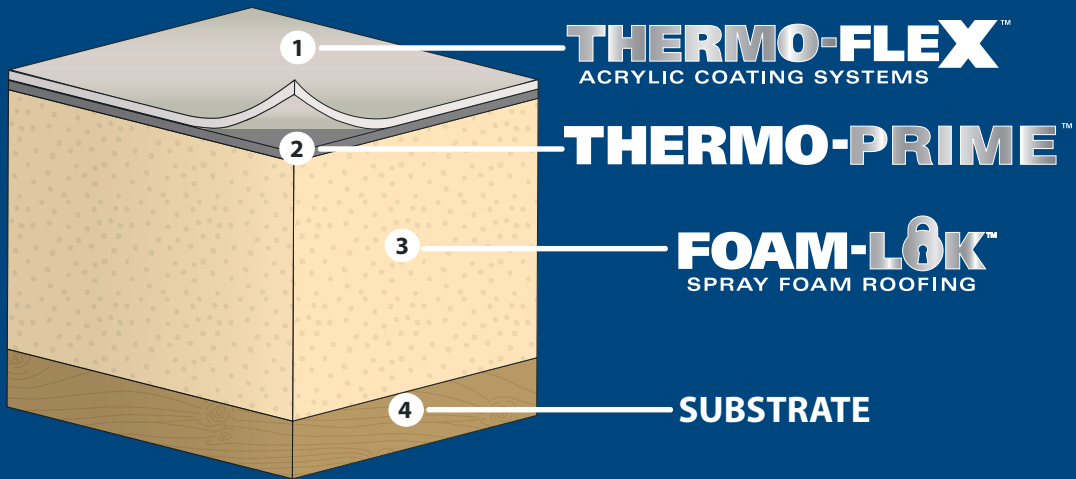

TF 2500® SILICONE

THERMO-SIL™ Foam & Coating System is a moisture-cured elastomeric silicone roof coating. TF 2500® provides outstanding performance with low temperature flexibility and elongation. Just like the other TF Systems, it provides a seamless and lightweight umbrella of protection with sustained performance you can rely on.

**Available in 4 standard colors:
White, Light Gray, Dark Gray or Tan**

Your Roof ... Our Solutions

TF 3000® URETHANE

THERMO-THANE™ Foam & Coating System is a moisture-cured elastomeric urethane roof coating. TF 3000® provides outstanding chemical resistance as well as other physical properties to ensure a long lasting protective membrane over your entire roof. TF 3000® also provides a monolithic, seamless and lightweight umbrella of protection.

*“Our Promise to You... Quality.
Every Time.”*

START “COOLING OFF” WITH THERMO-FLEX™ SYSTEMS

No other Foam & Coating System protects, preserves, and prolongs the life of commercial and residential roofs with the same standard of excellence and performance as the time-tested and proven THERMO-FLEX™ SYSTEM.
